## **BOOK SYNOPSIS**

Access to accurate, evidence-based, and clinically relevant information is essential to anyone who uses or recommends herbal products. With input from some of the most respected experts in herbal and integrative medicine, this completely revised edition of the American Herbal Products Association's Botanical Safety Handbook reviews both traditional knowledge and contemporary research on herbs to provide an authoritative resource on botanical safety. The book covers more than 500 species of herbs and provides a holistic understanding of safety through data compiled from clinical trials, pharmacological and toxicological studies, medical case reports, and historical texts. For each species, a brief safety summary is provided for quick reference, along with a detailed review of the literature. Easily understood classification systems are used to indicate the safety of each listed species and the potential for the species to interact with drugs. Enhancements to the Second Edition include: Classification of each herb with both a safety rating and a drug interaction rating More references listed for each individual herb, vetted for accuracy Specific information on adverse events reported in clinical trials or case reports Safety-related pharmacology and pharmacokinetics of each herb, including drug interactions Additional information on the use of herbs by pregnant or lactating women Toxicological studies and data on toxic compounds Representing the core of the botanical trade and comprising the finest growers, processors, manufacturers, and marketers of herbal products, the mission of the AHPA is to promote the responsible commerce of herbal products. The American Herbal Products Association Botanical Safety Handbook, Second Edition ensures that this vision is attained. The book will be a valuable reference for product manufacturers, healthcare practitioners, regulatory agencies, researchers, and consumers of herbal products.
